## SmartHome Control

Control your electric underfloor heating with your voice via Amazon Alexa and Google Home using the SmartHome thermostat.

- Full colour display and simple language menus makes it easy to set up and use.
- Internet connection via the ThermoSphere SmartHome Hub and Zigbee connectivity.
- Set up user accounts for the whole family to access.
- All SmartHome features are accessible from your smartphone. Change your temperature, edit your heating schedules and adjust all of the settings.
- Smart adaptive start learns how long your floor takes to heat up and reduces energy consumption.
- Open window sensor monitors the room temperature and switches off automatically if a door or window is opened.
- 7 day heating schedule with 2, 4 or 6 events per day.
- Built in energy monitor to help you reduce your energy consumption.
