10-146-3

Heavy-duty stainless steel

High visibility profile

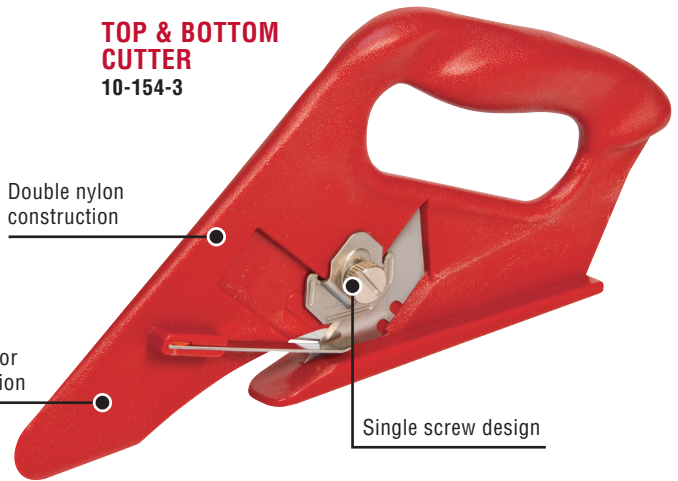

TOP & BOTTOM CUTTER
10-154-3

Double nylon construction

Long nose for row separation

Single screw design

The ROBERTS Carpet Cutter assortment allows users to cut most carpet quickly and efficiently. These cutters feature 2-blade slots for cutting close to the pile's edge (10-152-3 and 10-146-3) or cutting either the top or bottom of the carpet (10-154-3). Knurled screws enable a fast, tool-free blade change. While these cutters are expertly designed for carpet installation, they can also be used for carpet removal.
